NOTES AND COMMENTS.

The Currency of the Colony. With the dollar down to one shilling and

ninepence it is about time that some consideration should be given to the currency of the Colony. It is a most intricate and perplexing subject to dwell upon, so many different interests being concerned, but we believe if it were properly ventilated some substantial result might follow in the shape of a fixed basis on which the trade and commerce of the Colony might rely. At present the whole affair is reduced to a matter of speculation in which few, if any, know how they stand, and so far as we canunderstand nobody reaps any real benefit. It we look at the various companies and properties in which the leading men of Hongkong are interested, the figures by which they are represented, the accounts presented and the dividends declared are apparently successful, but when you take the trouble to turn their value from a white metal into a yellow one a very serious change comes over their completion. Take for instance a company with \$5,000,000 of capital paid up twenty years ago. To this sum it may, if very successful, have added another \$5,000,000. and paid, an annual dividend at the rate of seven and one-half per cent. This, if the money still remained as the property of members of the community, would represent \$7,5000,000 in dividends, \$5,000,000 as reserve fund and \$5,000,000 the original amount of the capital subscrib- Peking. ed, or a to,al of \$17,500,000 as the result of twenty years' accumulated profits. But if you take \$5,000,000 at the subscribed rate of 4/6 to the dollar, you get £1,125,000 in sterling, and if you take \$17,500,000 at 1/9 £1,531,250., or £406,250, as profit during twenty years working. This means slightly THE FRENCH CRUISER BUGEAUD over one and a half per cent. per annum has left for Japan. profit on the original capital were it reconverted into gold and the whole concern sold at its face value at the current exchange of the day. These are rather startling figures and will probably cast, a gloon over the minds of many of the capitalists of the Colony but, nevertheless, they are facts, and mean that while they have apparently been increasing their wealth by a long and weary residence in this small colony they might have invested their money to much better advantage in other and more congenial parts difficult is the problem when it concerns the alteration of the currency of a countrya more difficult problem it is impossible to suggest-and it cannot be less in a small colony like Hongkong considering the enormous extent of the country which supplies and which has no real currency of its own; but we feel sure that the time has come when some steps must be taken to substitute a gold for a silver standard. Dirty Meat Vans.

We have on several occasions called at tention to the very dirty state of the vans used to convey meat, from the Slaughter Honse to the Central Market. To-day we noticed a couple of these vans which had just brought up a load of meat, and they could only be described as filthy. Doth outside and in they were dirty in the extreme and seemed to have been innocent of soap and water for ages. Balleries and laundries in the Colony are inspected for cleanliness we believe, and we quite fail to see why meat vans should not be subjected to the same supervision. If any member the Government Service will take the trouble to look at a few of these vehicles we feel sure that his appetite will be affected What is the good of having a clean and well kept market if the meat is brought to i in dirty vans? We trust that the Author ities will I ok into the matter. Water scarce, but surely a meat van could be scrubbed daily with seawater! "

ANTI-FOREIGN RISING AT NINGPO. WARSHIPS TO THE RESCUE. ALARMING SITUATION.

(From Our Oien Correspondent.) SHANGHAI, April 10th. An anti-foreign rising has broken

out at Ningpo. The British cruiser Arcthusa and two German war vessels liave left here

hurriedly for the scene of the disturbance. It appears that a small boy has

eyes gouged out and the Roman Catholic Missionaries are blamed by the Chinese. There is great excitement in the

vicinity. The British Consul demanded an explanation from the Taotai, who seized and decapitated the supposed culprits, which tended somewhat to allay the excitement.

Afterwards the villagers gathered nt Ningpo and demanded satisfaction from the Roman Catholics.

The situation is alarming and the British gunboat Britomart has been ordered to Ningpo from Foochow.

COOL CHEEK :- In our Police Court report yesterday we mentioned that a man named Frank Smith, styling himself manager of the New Victoria Hotel, failed to surrender to his bail on a charge of being drunk and dis orderly. Messrs, Madar and Farmer inform us that they never employed Smith in any capacity, so account of his employment, as given to the Police, was simply an impudent falsehood.

THE WATER FAMINE:-A very good idea. of the shortage of water may be gained by a stroll along the Praya past the various centres where water is distributed. The Chinese stand in hundreds, marshalled in long lines, with vessels of every description to be filled as each individual's thru comes round. The people appear to wait very patiently and we do not think that it would be easy to find a more orderly crowd under similar circumstances. This afternoon's downpour, if only if continues, will prove a veritable godsend.

There will be no fee for admission, as previously announced, but a free will offering will be taken in aid of the Sunday School." This is certainly the first time we have heard of Humpty Dumpty being a biblical personage or in any way a sacred. We can only suppose that the good people of been found near Ningpo with his Rangoon have canonized him as a saint.

> LAST YEAR'S FLOODS IN NAN-CHONG:-A flood causing immense destruction befell the inhabitants living outside Nanchong city last year. Refugees escaped to the city of Nanchong amounting to no less than 56,0 o. Besides the enormous amount of personal and household property lost the soil is so immersed in water that a fruitless harvest is the consequence. Consequently a +um of 2,000 dollars was raised for the relief of these poor sufferers. (ine thousand dollars was contributed in Shanghai; while the other thousand was raised in Kiukiang by the foreign consulates there.

DEATH OF AN ACTOR :- The death is announced, after a long illness, at the Medical College, Calcutta, on Friday, the 7th ult. of Mr. Arthur Stanley, the well-known actor. The deceased gentleman, who was connected with the stage for several years, was an excellent low comedian, and came to Calcutta as Stage Manager to the Twinning Theatrical Company, under the management of Mr. T. V. Twinning. He next joined the Taylor-Company, with which he played leads for some years, and subsequently joined the Janet Waldorf Company. Lutterly he was with Mr. Dallas, and Song, "Torendor's Song" (Carmen). used to play in musical comedy. Mr. Stanley, who was well-known and liked in Calcutta, had a quiet unassuming manner, and was very popular with the profession:

This was the first occasion. on which a combination of such bands had been heard here, and great credit is due to Bandmaster J. H. Moir, R.W.F., for the excellent manner in which the programme was rendered. During the performance the field was well filled with spectators of different nations; among those present were General and Lady Gascoigne. The military authorities in aunouncing that the performance had been arranged mentioned that if the public showed appreciation of it, it would be repeated frequently. A meeting of the Levislative Council was held this afternoon in the Council Chainber. There were present:-His Excellency Major-General Sir W. J. Galcoigne, K.C.M.G.

(Officer Administering the Government), Hon. A. G. Wise (Acting Attorney General), Hou. J. H. Stewart Lockhart, C.M.G. (Colonial Secretary), Hon. Commander: R. M. Rumsey. R.N. (Harbour Master), Hon. A. M. Thompson (Colonial Treasurer), Hon. W. Chatham (Director of Public Works), Hon A. W. Drewin (Registrat General), Hon. T. H. Whitehead, Hon. J. J. Cell-Irving, Hon. J. Thurburn, Hon. Dr. Ho Kai, Hon. Wei A Yuk, and Mr. R. F.

Johnson (Acting:Clerk of Councils). The Clerk of Councils read the minutes of the last meeting.

LAID ON THE TABLE. The following papers were laid on the table.—Preleminary: memoranda on plague prevention in Hongkong, papers regarding the New Post Office, report of the Committee on Education, the report of the Commission. appointed to enquire into the Public Worls Department, and preliminary report on the

The Colonial Secretary moved that Financial Minutes, Nos. 10.11 and 12 be referred to the Finance Committee The minutes were as follows :--

No. 10. "The Officer Administering the Government recommends the Council to vote a sum of One thousand five hundred and eightysix Dollars and Twenty Cents (\$1,586,20) being a sum equal to the unexpended portion of the vote for 1901 for laying out Mountain Lodge

No. 411-14 The Officer Administering the Government recommends the Council to inte sum of One housand and four bunneed Dollars (\$1400), being a sum equal to due unexpended vote for 1901 for the construction of locked private letter boxes for the use of the General Post Office

No. 12 The Officer Administering the Government recommends the Council to vote a sum of Four hundred and thirty-three Dollars. and Thirty-two Cents (\$433.32) to meet the cost of the rent of "The Cliffs" for the two first months of the current year.

The Colonial Secretary laid on the table the report of the Finance Committee, dated 26th March last, and moved its adoption

FINANCE COMMITTEE.

The Colonial Treasurer seconded and the motion was agreed.

PURCHASE OF MARINE LOTS 99 AND 100 The following resolution was on the agendar-"That this Council approve of the expenditure of the sum of \$508,2"o for the purchase of Marine Lots 99 and 100." In moving the resolution the Colonial Secretary pointed out that it was unnecessary for him to enter into details as payers regarding the new Post Office had not only just been laid upon the table, but had also been circulated among the members of the Council, and they had also been circulated to the press so that those interested in the matter might have an opportunity of reading them and of knowing the reasons which had induced the Government to take Steps for purchasing the site in front of the offices of Messrs. Jardine Matheson & Co. The want of a new public Post Office, he pointed out, was one that had been under consideration for sometime, and anyone who paid a visit to the old premises would realise that it was a pressing want. Steps which had now been taken with a view to supply that pressing want, were steps which would facilitate the matter considerably because it would be possible now to take immediate steps with a view to securing the new Post Office, whereas under the previous arrangements an unavoidable delay would have been necessary. It had been estimated that the new Courts would not be ready at least until 1905, and it would not have been possible to maie a commencement with the new Post Office until the Eupreme Court had been removed from its present site. For those reasons he felt sure that the action of the Government would be approved by the Council. As to the site itself, he did not think it would require any remarks from him, and the was of the opinion that anybody who was acquainted with it would 'recognise that it was an ideal site for the Post Office. He moved the motion accordingly.

The Colonial Treasurer.-- 1 beg to second

The lion. T. H. Whitehead pointed out that the matter had been under discussion for a considerable number of years, and argued that the Government had formerly thwarted the views and wishes of the unofficial members of the Council. He was glad, however, that they had now seen the error of their ways and had come to a wise decision in the end, viz., to put the new Post Office buildings on a marine frontage.

The Colonial Secretary felt it was only right to point out that so far from the Government having, thwarted the views of the unofficial members of the Council, it was formerly decided by a majority, including unofficial members, that it would be advisable to have the new Post. Office erected on the site of the Supreme Court. It was unnecessary, he thought to explain the matter because from the remarks of the hon member it would have been thought the Government had riden roughshod over the views of the unofficial members. The motion was carried.

THE BUILDINGS ORDINANCE

H. E. made a statement regarding the new Buildings Ordinance to the effect that its consideration had been further delayed owing to the fact that Prof. Simpson and Mr. Chadwick considered it did not embrace all that was desirable. A reported of the statement will appear in

our issue to-morrow.

The Council adjourned sine die.

FINANCE COMMITTEE.

A meeting of the Finance Committee wa then held, the Colonial Secretary presiding.

The Finance minutes mentioned above were brought forward and passed, the Colonial Secretany remarking with regard to the latter that "The Cliffs," as the Committee were aware, was the residence repted for the use of H.E. the Governor and the vote was necessary to cover the expenditure for the first two months of the present year. The Governor had ceased to be the tenant of "The Cilffs" in view of the almost completed state of his residence at Mountain Lodge.

THE "PERU" SHOOTING AFFAIR

PRISONER ON HIS TRIAL

At a epocial sitting of the Criminal Court held this morning before the Chief Justice, His Lordship W. M. Albert Freeman Pillsburg while in liongkong waters on the 23rd January last. There was another count against him of shooting with intent to do grievous bodily harm

Pillsbury would be called, they would also hear the evidence of a night watchman who heard the prisoner say he was going to kill the caprain, and another witness might also be called to bear out that evidence. At the Magistracy the stewardess gave evidence, but she was now unavoidably absent and he thought that Ivery likely her evidence would be read.

Captain Pillsbury proceeded to give evidence and said that when he returned to the Peru late on the evening in question he went to his cabin and later on heard the prisoner outside. The man offered resistance, but he was finally ejected and handed over to the -watchman with instructions to take him back to his room. Subsequently witness questioned him as to why he went to the stewardess's room and prisoner replied that he went to see if she was all right. Witness suggested that he should apologise and this the prisoner said he would do. The watchman was sent to find the stewardess and defendant went to her to tender an apology. Witness accompanied him and heard him make the apology. After that prisoner went away and as the stewardess was in | me. a hysterical condition, and thinking she might be molested if she returned to her cabin witnessed accompanied her and intended to remain with her until she became, quiet. The door of the cabin was open. .. e remained there about twenty minutes and then heard the defendant shouting "Capta'n Pillsbury, I am going to kill you." Tur ing round he saw the prisoner raise a rifle and fire, the bullet going through the shoulder of witness's coat. As he kept the rifle to his shoulder he thought it was a "repeater" and ran to d sarm him. He closed with him, but at the same time prisoner swung the rifle and struck him causing him to fall with the prisoner on top of him. A watchman came up and the first officer was sent for and prisoner put in irons. As the irons were being put on prisoner said "Captain Pillsbury, you are a lucky man. I did my best to kill you." Each officer on board had a rifle. He had known prisoner for 15 months and had had some trouble with him. He was of a quarrelsome disposition and especially if he had been drinking.

Afterwards I took the lamp, and the captain asked me to take it away as he said it was shining into No. 3 state room. The Captain was talking to the stewardess-I then went back to the pantry and again saw the steward, I then went out and had a smoke Forward copies of recent testimonials and and the steward then went to his room-on the 22nd at 1.30 a.m. I heard the steward say to the Captain "I am going to kill you" I heard it and at once went 'into the saloon, where I heard a shot and saw a flash. The steward was holding the rifle up to his shoulder. The Captain was on the right side of the preferred. table. It was then that I heard the steward say again "Captain I am going to kill you" I then. said Good God Mr. Marshall what are you going to do. The Captain then made a rush for the steward, both struggled and fell down, the steward on top of the Captain. I then grabbed the rifle and stowed it away-I separated them and the Captain asked me to call the chief officer which I did. I have heard the prisoner. say for three times words to this effect "Captain I am going to kill you." The Captain was fully Royal Navy, and for commercial life. dressed, the stewardess when I saw her was in her night gown, each officer has a rifle in his cabin. Though the steward was slightly tipsy,

I think he knew what he was doing. The evidence given by the stewardess was then read which went to state that on the night of the 22nd Japuary, she heard a noise of her Cabin door, and on opening found the Captain and the steward struggling.

Inspector Gauld of the Police was then called, and stated that on January 22nd while he was on duty at Tsim Sha Tsui Police Station Captain Pillsbury gave prisoner into custody for attempted murder. He then accompanied them on board, and took possession of the rifle one box of cartridges, and a piece of wood, shattered by the bullet. There was also an empty cartidge case in the rifle. He noticed that when charged at the station the prisoner had a black eye, and a bruise on the right

temple. At this juncture Mr. Slade stated that the prisoner had one more statement to make, but after sundry consultations, His Lordship adjourned the case till to a.m. to-morrow.

CANTON NOTES.

(From our own Correspondent.) CANTON, April 9th

THE KWANGSI REBELLION. The latest advices received here indicate that the rebellion has practically collapsed. Some of the missionaries who left their stations are preparing to return to them. The rebels may again gather in sufficient numbers to cause trouble but at present they show little life.

Some large shops in the city of Tung Kun were robbed by an armed band a few night ago. A large sum of money was carried away. A night or two after the large family of Wan living just outside Tung Kun city was attacked and a good number of the houses robbed. There are an unusual number of robberies reported for this time of the year. This may be accounted for by the fact that so many men are out of work. Ordinarily every man who will work can find it and be, well paid at this time of the year. However, the dry weather has made it impossible to cultivate the land and as a consequence hundreds are out of work. It always happens that when there are numbersof idle men there are plenty of robberies. CHOLERA.

Little that is new to report. The daily death rate continues about as usual. The locality in which the disease is worst changes. Honam" continues to report a goodly number. The villages about Canton seem all to have more or

Some days ago the British Consul urged the Viceroy to see that the streets were cleaned but little notice was taken of the request and nothing done to clean up. Now the United States Consul bas urged the Viceroy to do something to prevent the spread of the disease and save the lives of his people. Both the Nam Hoi and the Pun. U magistrates have put out proclamations embodying the suggestions. of the United States Consul. They urge that the drains be cleaned and flushed but as there is no water it is difficult to understand how this can be done except where the fire hose reaches. This would take in only a small part of the city. The people are also urged to boil the water well before using it and it is suggested that a few drops of sulphuric acid be drunk with the water used twice a day. The Chinese are not likely to take to "sulphur water" as they believe that this would product heat.

SUGGESTED OHOLERA RULES FOR MANILA.

The latest returns from the Manila Board of Health as regards the number of cases of cholera would seem to indicate that the disease. is on the increase. Everybody should therefore do all in his power to belp the authorities who are straining every nerve to keep the disease within bounds. With this object in view the following suggestions, sent to the Manila Times by a correspondent who has been in India during the cholera there, seem timely

Call for voluntaers to assist the authorities, especially in disinfecting W. C's. Provide cheap disinfectants and compelall to use them. 2. Compel everyone to clean up filth and rubbish about their houses and burn them. Make bonfires at corners of streets. Fine everyone whose houses have bad smells.

3. Scrape all dirt and mud off the roads immediately after watering. Remove this and fill up esteros.

4. Establish public urinals in every public. Kill all dogs found straying about as they

are scavengers and only serve to spread 6. Start the pail system as soon as possible. These laws certainly seem somewhat elaborate and slightly conflicting. If people have to

burn their houses there will be no need for bonfires at street corners. Because of that. reason there should be no bad smells except those arising from the urinals to be established in every public place. Dogs would evidently have a bad time what with escaping from officials, burning houses, and obnoxious effluyla -Ed., H. R. 7.]

The Directors are pleased to be able to place before the Shareholders the result of the working of the past year, which permits them to recommend, after providing for the six per cent Preference Share Dividends, a distribution of the profits to the Ordinary Shareholders of 7 per cent, and to the holders of the "B" Shares of 6 per cent. per annum, and to place the sum of £40,000 to credit of "Purchase Account of Steamers," and the further sum of £20,000 to credit of "Equalisation of Dividends Account."

The steamers of the Company have been maintained in thoroughly efficient condition out of current revenue.

In view of the extension of the Company's operations, and to meet the universally expected increase of trade with the Far East, the Board contracted for the building of three large abruptly in the all but empty shop. and powerful twin-screw steamers, "Poyang," "Oanfa" and "Ningchow," for delivery during | here. the current year. It is confidently expected that these vessels will materially contribute to the profitable working of the Company,

The Directors announce with regret the -retirement of Mr. David Reid, who was a Director of the Company from its commencement and was for many years Chairman of the Board. The Directors invited Mr. Geo. B. Dodwell to join the Board, and his election will need your confirmation.

The Auditors, Messrs. John Baker and Sons and Mr. Jamieson Elles, offer themselves for re-appointment.

It is proposed that dividends shall be paid both in London and the East, on the 21st March, 1902. The transfer books will be closed from 5th to 31st March, inclusive.

"WELLY BAD BUSINESS."

The Chinese laundry had a very brief spell in London. It has now cropped up again in Manchester, and an advertisement in a local paper invites Mancunians to send their washing to Mr. Wing Chong, from Canada, of 38, Downing-st., Manchester.

The other day a representative of The Morning Leader called at that address to interview the gentleman.

"Does Wing Chong live here?" he of The (Morning Leader asked somewhat needlessly, for the only yellow being apparently on the premises was the person addressed.

The yellow man nodded an assent: He was young, pleasant-looking, brisk in manner and curt in speech. It was hard to make him understand the purpose of the representative. He could only say, "Me no pay."

His doubts faded into a childlike smile when at last he was asked whether this was the first Chinese laundry in Manchester and whether he had one anywhere else in England.

"No, only Canada," said Mr. Wing. "Many Canada places, long time much years." "What made you come to Manchester?

Business? Have you found it better here than

in Canada?" Several times during this short dialogue Wing Chorg, doubtful to the last, wanted assuring that he had nothing to pay for granting an interview. Probably it was this more than his business that led him to leave the reporter

"Ah no, welly good Canada. Welly bad

How long have you been in Manchester?"

"Five weeks. Business welly bad!" "Have you any assistants?"

"No, but some when more business." "Do you work by machinery or by hand?" "All hand. Better by hand, but go now.

Welly busy." Two counters and a number of shelves with three or four small parcels were all it contained. So far the residents have extended but sorry help to the enterprising lonely yellow man, and in all probability he will soon return to his former haunts across the water, where business is " welly good."

RARE GEMS.

DISPOSED OF BY PUBLIC AUCTION.

Beauty held court at Christie's the other afternoon-beauty in the guise of jewels. Those of the late Lady Matheson were classed Yangisse, "H. L. Allen... 9,170...Mar., 1899 as "beautiful," those of Lady Cunliffe Brooks and others as "important," 'One felt that the distinction was a little unkind.

One also felt that the auctioneer ought to have spoken at the great moments if not in poetry at least in delicate, musical prose. Instead of which, as the famous judge said, he might be selling paper-bags or watercress, so far was he from a hint of thrills. But his bland and level screnity had something distinguished about it. When a diamond pave marquise ring fetched to guineas he was as calmly philosophic as when a supphire and brilliant cluster brooch "reached" £980, or a brilliant tiara was knocked down for £1,680.

The Great "feature" of the auction was the pearl necklace presented to Lady Matheson on her marriage; in 1843, by Sir Jamsetjee Jejeebhoy. This fetched £6,800. After that there was little of a thtill in the fact of Lady Cunliffe Brooks's brilliant rosette necklace reaching £1,560, while £340 for the brilliant tiara presented to the late A. M. Bethune by ismail Pasha, first Khedive of Egypt, almost smacked of anti-climax.

"After a few hours of jewel display and riches, and the calm of the auctioneer, and the matterof-fact ways of dealers, the whole thing became almost trite. Gems and offers of hundreds sterling began to strike the imagination as being facts as casual as reading the papers or stepping into an omnibus.
